FIRE DAMAGES CITY BARBEQUE IN CENTERVILLE

(CENTERVILLE, OH) – City Barbeque, 5 East Franklin Street, sustained damages from a fire that was reported at 1:30 a.m. on August 12.

The fire caused extensive damage to the kitchen area of the restaurant. No one was in the building when the fire began, and at this point it is not known how the fire started.

“It’s unfortunate but we’re grateful that none of our employees or customers were hurt,” said Rick Malir, President of City Barbeque. “We plan to re-build quickly so we can again serve the Centerville community. In the meantime, we invite our customers to visit our Beavercreek and West Chester locations.”

City Barbeque plans to have the Centerville employees work within the company and in other company restaurants while they re-build.
